SUMMARY

As a recent business analyst graduate, I have gained a solid foundation in business analysis methodologies, data analysis, and project management. Throughout my academic journey, I completed several projects that demonstrated my ability to analyze data, identify key insights, and provide meaningful recommendations to stakeholders. I am proficient in using various software tools such as Microsoft Excel, SQL, and Tableau. I am a quick learner, able to adapt to changing environments, and possess strong communication and interpersonal skills. A dedicated and detail-oriented professional who is committed to helping organizations achieve their goals through data-driven insights and recommendations.

SKILLS
